

getData\_VoteAverage

stat

```
graph RL; stat[stat] --> getData_VoteAverage[getData_VoteAverage];
```

The diagram illustrates a call to the function `getData_VoteAverage`. A rectangular box on the left, filled with a light gray color and outlined in black, contains the text `getData_VoteAverage`. To its right is a smaller, white rectangular box with a black outline containing the text `stat`. A dark blue arrow points from the right side of the `stat` box to the left side of the `getData_VoteAverage` box, indicating that the `stat` variable is passed as an argument to the function.
